Laredo, Texas

Mr. & Mrs. Hinojosa:

Thank you so much for presenting during the October PTC meeting. Our parents were extremely interested in your product. They were amazed at how easy it was to get their child's identification and demographics in case of any emergency.

The campus teachers felt the process was easy and convenient. They did not need to do anything, but remind the children to return their orders on the day of the scheduled picture. The parents selected the package desired and enclosed the money in the envelope. The teachers appreciated not having to collect and count money.

The timely manner in which the product was delivered was efficient to parents. The quality of the product contributed to the parent's satisfaction.

We thank you once again for helping us protect our students at Bonnie L. Garcia Elem. School.

In the Best Interest of Children,  
Clare Flores
