This is an amazing service that you provide to families. It's one of those things that you hope to never use, but if so, imagine the relief to know that so much critical information is at your fingertips. In those "unthinkable" moments, having this data compiled and in a form that's ready to use in an instant is something that can truly make a difference.

Your on-site team is efficient, kind, and diligent. Thank you DIGIKIDS, Head O'Meadow now has 162 children safer because of your generous efforts!!!
